

End Mill Sharpener

EY-32C End Mill Spiral Sharpener

Spiral Sharpening(Air Bearing Device)

- Capability: Grinding outer diameter of end mill, side cutter, reamer, and drill
- Feature: No frictional design

When actual roundness of spindle within 0.005mm, it can rotate lightly and operate easily. It is easy to set tools within 2 minutes.

- Pneumatic spindle had been heat treatment and chrome grinded, so it will not rust and will last accuracy. The first flute and second clearance angle of tools can be completed set within few seconds.

EY-32C

Specifications	Measurements	Standard Accessories
Grinding Range	Ø3 ~ Ø32mm	Sealed Stand
Grinding Wheel Motor	1/2 HP	Flange with Counter Weight
CBN Grinding Wheel	Ø 125 x 31.75 x 1.57mm	Morse Taper Sleeve 6, 8, 10, 12, 16, 20, 25mm
Grinding Length	15 ~ 200mm	Quartz Working Light
Grinding Wheel Rotational Speed	4300rpm	Operation Manual
Net Weight/ Gross Weight	134/ 178 kgs	Tool Box
Packing Dimensions	73 x 68 x 141cm	CBN Grinding Wheel Ø 125 x 31.75 x 1.57

(Manual lubrication system for slideway and ball screw.)

Grinding 2, 3, 4 flutes knife edge and outer diameter of end mills

Can grind the edge and outer diameter of end mills
2 flutes end mill
